92. Now look at CARD O. Some people think that the government in Washington is trying to do too many things that should be left to individuals and private businesses. Others disagree and think that the government should do even more to solve our country's problems. Still others have opinions somewhere in between. Where would you place yourself on this scale, or haven't you made up your mind on this?

93. Look at CARD P. In general, some people think that it is the responsibility of the government in Washington to see to it that people have help in paying for doctors and hospital bills. Others think that these matters are not the responsibility of the federal government and that people should take care of these things themselves.

Where would you place yourself on this scale, or haven't you made up your mind on this?

94. Now look at CARD Q. Some people think that (Blacks/Negroes) have been discriminated against for so long that the government has a special obligation to help improve their living standards. Others believe that the government should not be giving special treatment to (Blacks/Negroes).

Where would you place yourself on this scale, or haven't you made up your mind on this?

I STRONGLY AGREE THE GOVERNMENT IS OBLIGATED TO HELP BLACKS

I AGREE WITH BOTH ANSWERS

I STRONGLY AGREE THAT PEOPLE SHOULD TAKE CARE OF THEMSELVES

ASK EVERYONE:

Here are some questions about a new scientific technology called "genetic screening." Using genetic screening, it is now possible to tell whether someone has inherited a tendency to develop certain cancers and certain forms of heart disease. These tests do not mean that person will always develop the disease, but only that he or she may do so, depending on other conditions.

134. Should employers have the right to give these genetic tests to people who are applying for a job, or shouldn't they have that right?

- Employers should have the right 1 60/

Now, I'd like you to consider the seriousness of various events. We're going to use the seriousness of being fired or permanently laid-off as a reference point. We're going to give it an (arbitrary) seriousness score of 200 (HAND CARD AA). As we ask about other events, we want you to compare how serious you feel they are compared to the score of 200 for being fired or permanently laid-off. For example, if you thought an event was three times as serious as being fired or permanently laid-off, you would give it a score of 600; if you thought an event was only half as serious, you would give it a score of 100. Of course, if you felt it was exactly as serious as being fired or permanently laid-off, you would give it the same score-- that is, 200. You can use any number greater than 200 or smaller than 200 to indicate how serious you think the event is.

First, consider having a cold for a couple days, compared to a score of 200 for being fired or permanently laid-off. How serious is having a cold for a couple days. . .

And compared to a score of 200 for being fired or permanently laid-off, how serious is being permanently paralyzed in an automobile accident. . .

RESPONDENT SHOULD GIVE A SMALL NUMBER FOR A COLD AND A LARGE NUMBER FOR BEING PARALYZED. IF COLD IS GIVEN A NUMBER ABOVE 100 AND/OR IF BEING PARALYZED IS GIVEN A VALUE BELOW 250, THE RESPONDENT PROBABLY DOES NOT UNDERSTAND THE TASK. GO OVER THE QUESTION AND FOLLOW THE INSTRUCTIONS ON EXPLAINING THE RATING SCALE TO THE RESPONDENT. THEN CONTINUE WITH THE RATINGS BELOW.

192.Y. Now, I'd like you to consider the seriousness of various events that happen to people. We're going to use a scale that goes from 0 to 100 (HAND CARD BB). A score of "0" represents events that are the very least serious. A score of "100" represents events that are the very most serious. ((A score of "50" would apply to events whose seriousness was midway between the least serious at "0" and the most serious at "100".)) Of course, you can choose any number from "0" to "100" to show how serious you think an event is.

What about the first event? How serious-- between 0 and 100-- is being ill enough to go to a doctor?

On each line the first word is in capital letters--like BEAST. Then there are five other words. Tell me the number of the word that comes closest to the meaning of the word in capital letters. For example, if the word in capital letters is BEAST, you would say "4" since "animal" comes closer to BEAST than any of the other words.

If you wish, I will read the words to you. These words are difficult for almost everyone--just give me your best guess if you are not sure of the answer. **CIRCLE ONE CODE NUMBER FOR EACH ITEM BELOW.**
