► IF VERXY = X, ASK 0. IF VERXY = Y, SKIP TO 1.

0. Problems often come up in life. Sometimes they're personal problems – people are very unhappy, or nervous and irritable all the time. Sometimes there are problems in a marriage -- a husband and wife just can't get along with each other. Or, sometimes it's a personal problem with a child or a job. I'd like to ask you a few questions now about what you think a person might do to handle problems like this.

For instance, let's suppose you had a lot of personal problems and you're very unhappy all the time. Let's suppose you've been that way for a long time, and it isn't getting any better. What do you think you'd do about it?

[John/Mary/Juan/Maria] is a [White/Black/Hispanic] [man/woman], who has completed [the 8th grade/high school/college]. During the last month [John/Mary/Juan/Maria] has started to drink more than [his/her] usual amount of alcohol. In fact, [he/she] has noticed that [he/she] needs to drink twice as much as [he/she] used to to get the same effect. Several times, [he/she] has tried to cut down, or stop drinking, but [he/she] can't. Each time [he/she] has tried to cut down, [he/she] became very agitated, sweaty and [he/she] couldn't sleep, so [he/she] took another drink. [John/Mary/Juan/Maria] is a [White/Black/Hispanic] [man/woman], who has completed [the 8th grade/high school/college]. Up until a year ago, life was pretty okay for [John/Mary/Juan/Maria].
