PRECONSENT: Info

NORC at the University of Chicago and the National Science Foundation have done the General Social Survey for more than 40 years to keep a historical record of the concerns, experiences, attitudes and practices of Americans. Your household was randomly selected from addresses across the nation for participation. The information collected is used by policy makers, scientific researchers, government officials and students to better understand Americans and better meet their changing needs.

The questions we'll ask have to do with your opinions and knowledge on a variety of important topics like work, the family, government, quality of life issues, religion, social identity, science, and health. Some topics may be sensitive for you, and you can decline to answer any question. At the end of the survey, I will complete a brief section of observations about the interview itself, including how long the interview took and who was present.

Your participation does not involve any risks other than what you would encounter in daily life. Most participants find the survey to be interesting with a chance to talk about things that matter to them. Which questions are asked depends partly on chance, and partly on your answers to other questions. The interview takes from about 60 to 90 minutes for most people. If you did not participate in the General Social Survey in 2012, you may be contacted in 2016 to participate in a future round of the General Social Survey.

(IF NEEDED: We can break up the interview into different sections if that will make it easier for you.)

Your participation is voluntary. However, all information that you provide will be kept in strict confidence. It is important to us to protect your privacy. All participants' answers are combined, and presented in the form of summary statistics, such as tables and graphs. If you decline to answer a question or a portion of the interview, data from other questions you have answered may be used in these summary statistics.

PRESS ENTER TO CONTINUE

CONSENT: Categorical (Single)

We have applied for a Certificate of Confidentiality from the National Institutes of Health. This means that your answers will be kept confidential, even if the researchers receive a court order or subpoena to release information that could identify you. The protection offered by the certificate does not stop the researchers from voluntarily reporting information about suspected or known sexual, physical, or other abuse of a child or elderly person, or a participant's threats of violence to self or others. If you voluntarily give your written consent for anyone to receive information about your participation in this research, then we may not use the certificate to withhold this information.

If you have questions about your rights as a research participant, you may call the NORC Institutional Review Board Manager toll-free at 1-866-309-0542. If you have questions about the General Social

Survey, you can contact the project hotlines at 1-800-487-4609 (Eastern and Central) or 1-888-495-2275 (Mountain and Pacific).

Parts of this interview may be recorded for quality control purposes. This will not compromise the strict confidentiality of your responses. You can stop the recording at any time. May I continue with the recording?

EQWLTH: Categorical (Single)

Some people think that the government in Washington ought to reduce the income differences between the rich and the poor, perhaps by raising the taxes of wealthy families or by giving income assistance to the poor. Others think that the government should not concern itself with reducing this income difference between the rich and the poor.

Here is a card with a scale from 1 to 7. Think of a score of 1 as meaning that the government ought to reduce the income differences between rich and poor, and a score of 7 meaning that the government should not concern itself with reducing income differences. What score between 1 and 7 comes closest to the way you feel?

Categories:

{_1}	1 Government should do something to reduce income differences between rich and poor
{_2}	2

BUYVALUE: Long [0 .. 100]

Approximately what percent of the company stock that you own today did you buy with your own savings or money from your wages?

FI INSTRUCTION: APPROXIMATIONS ARE FINE.

% BOUGHT WITH MY OWN SAVINGS OR MONEY FROM MY WAGES:

> End If
> If OWNSTOCK={yes} Or OWNSTOCK.ContainsAny({noown, noowndk, dkown, dontknow, refused}) Then

STOCKOPS: Categorical (Single)

Do you currently hold any stock options in your company (vested or unvested)?

IF ASKED: A stock option is a right to purchase stock at a set price for several years into the future, typically ten years. For example, one stock option at $10 means that you can purchase your company stock for $10 anytime over ten years. A stock option does not include a plan in which there are periodic deductions from payroll to set aside money to purchase shares at the end of an offering period. That is typically called an Employee Stock Purchase Plan.

IF ASKED: "Vested" means that you own the stock option and can exercise it at any time and "unvested" means that you have to stay with your company a certain amount of time until you own the stock option and can exercise it at any time.
