{intro} {consent_fill} topics may be sensitive for you, and you can decline to answer any question. Most participants find the survey to be interesting with a chance to talk about things that matter to

them. Which questions are asked depends upon your answers to other questions. The interview takes from about 60 to 90 minutes for most people.

(IF NEEDED: We can break up the interview into different sections if that will make it easier for you.)

Your participation is voluntary. However, all information that you provide will be kept in strict confidence. It is important to us to protect your privacy. All participants' answers are combined, and presented in the form of summary statistics, such as tables and graphs.

Parts of this interview may be recorded for quality control purposes. This will not compromise the strict confidentiality of your responses. May I continue with the recording?

Some people think that the government in Washington ought to reduce the income differences between the rich and the poor, perhaps by raising the taxes of wealthy families or by giving income assistance to the poor. Others think that the government should not concern itself with reducing this income difference between the rich and the poor.

Here is a card with a scale from 1 to 7. Think of a score of 1 as meaning that the government ought to reduce the income differences between rich and poor, and a score of 7 meaning that the government should not concern itself with reducing income differences. IF RESPONDENT HAS NOT MADE UP {response to gendfill} MIND ON THIS ISSUE; CODE 'DON'T KNOW.' THIS IS AN ACCEPTABLE RESPONSE. DO NOT PROBE.

Please look at the hand card. Some people think that the government in Washington is trying to do too many things that should be left to individuals and private businesses. Others disagree and think that the government should do even more to solve our country's problems. Still others have opinions somewhere in between.

Where would you place yourself on this scale, or haven't you made up your mind on this?

THIS IS AN ACCEPTABLE RESPONSE. DO NOT PROBE.

Please look at the hand card. In general, some people think that it is the responsibility of the government in Washington to see to it that people have help in paying for doctors and hospital bills. Others think that these matters are not the responsibility of the federal government and that people should take care of these things themselves.

Where would you place yourself on this scale, or haven't you made up your mind on this?

2007-2008 was designated the International Polar Year. During this year, many scientific and educational organizations made efforts to increase public awareness of the Earth's polar regions. Building on these efforts, organizations hope that people will learn more about the people and animals that live near the poles, the changes taking place in the environment there, and new scientific discoveries about the Arctic and the Antarctic.

Now we would like you to complete a brief questionnaire on your own.

Remember that all of your answers are completely confidential. They will not be associated with your name in any way, and will be published in summary form only. If there is a question that you don't want to answer, just hold down the [Alt] key and press the [R] key. When you've answered the last question, you'll see a screen that says 'Questionnaire Complete' and you can turn the computer back to me.
