income differences between the rich and the poor, perhaps by raising the
taxes of wealthy families or by giving income assistance to the poor.
Others think that the government should not concern itself with reducing
this income difference between the rich and the poor.

Here is a card with a scale from 1 to 7. Think of a score of 1 as meaning

I'd like to talk with you about issues some people tell us are important.
Please look at the hand card. Some people think that the government in
Washington should do everything possible to improve the standard of living

it is not the government's responsibility, and that each person should take

The first issue is global warming. Global warming means a trend toward warmer temperatures throughout the world, with more extreme weather in many places and changes in food production that could affect our way of life. Some people believe that the burning of gasoline and other fossil fuels causes global warming. Others say that global warming has purely natural causes.

2007-2008 was designated the International Polar Year. During this year, many scientific and educational organizations made efforts to increase public awareness of the Earth's polar regions. Building on these efforts, organizations hope that people will learn more about the people and animals that live near the poles, the changes taking place in the environment there, and new scientific discoveries about the Arctic and the Antarctic.

STOCKOPS: Categorical (Single)
Do you currently hold any stock options in your company (vested or unvested)?

IF ASKED: A stock option is a right to purchase stock at a set price for several years into the future, typically ten years. For example, one stock option at $10 means that you can purchase your company stock for $10 anytime over ten years. A stock option does not include a plan in which there are periodic deductions from payroll to set aside money to purchase shares at the end of an offering period. That is typically called an Employee Stock Purchase Plan.

IF ASKED: "Vested" means that you own the stock option and can exercise it at any time and "unvested" means that you have to stay with your company a certain amount of time until you own the stock option and can exercise it at any time.
