NAVIGATION: Info

Navigating the survey:

This survey contains questions you will be asked to answer on each screen.

Click the 'Next' button to continue to the next page.

Click the 'Back' button if you want to go back to an earlier question.

Leaving and returning to the survey:

MDDtoDOC - GSS2022_BALLOT1.MDD - 1/23/2023 9:47:55 AM

Click the 'Exit' button on the top right of the screen if you need to complete the rest of the survey at a later time. Exiting will help ensure that all of your responses are saved.

To return to the survey, go to the survey's URL and re-enter the unique PIN you were provided.

Changing the survey language:

Click on the language dropdown in the top right corner. The language will update after you click 'Next'.

End If

PRECONSENT: Info

NORC at the University of Chicago and the National Science Foundation have done the General Social Survey (GSS) for more than 50 years to keep a historical record of the concerns, experiences, attitudes and practices of Americans. Your household was randomly selected from addresses across the nation for participation. The information collected is used by policy makers, scientific researchers, government officials and students to better understand Americans and better meet their changing needs.

The questions we'll ask have to do with your opinions and knowledge on a variety of important topics like work, family, government, science, and health. Some topics may be sensitive for you, and you can decline to answer any question.

Your participation does not involve any risks other than what you would encounter in daily life. Most participants find the survey to be interesting with a chance to think about things that matter to them. Which questions are asked depends partly on chance, and partly on your answers to other questions. The interview length varies for different households; for most people, it usually takes about 90 minutes. You may also be contacted in the future to participate in a future round of the General Social Survey or another study established by the National Science Foundation. Participation in this round of the survey does not obligate you to participate in any future rounds of the General Social Survey or any other surveys. Any future participation on your part will again require us to gain your consent.

CONSENT: Categorical (Single)

Your participation is voluntary. However, all information that you provide will be kept in strict confidence. It is important to us to protect your privacy. All participants' answers are combined, and presented in the form of summary statistics, such as tables and graphs. If you decline to answer a question or a portion of the interview, data from other questions you have answered may be used in these summary statistics.

We have received a Certificate of Confidentiality from the National Institutes of Health. This means that your answers will be kept confidential, even if the researchers receive a court order or subpoena to release information that could identify you. The protection offered by the certificate does not stop the researchers from voluntarily reporting information about suspected or known sexual, physical, or

MDDtoDOC - GSS2022_BALLOT1.MDD - 1/23/2023 9:47:55 AM

other abuse of a child or elderly person, or a participant's threats of violence to self or others. If you voluntarily give your written consent for anyone to receive information about your participation in this research, then we may not use the certificate to withhold this information.

If you have questions about your rights as a research participant, you may call the NORC Institutional Review Board Manager toll-free at 1-866-309-0542. If you have questions about the General Social Survey, you can contact the project hotline at 1-888-837-8988.

Please press 'Next' to continue with the survey.

WLTHWHT: Categorical (Single)

Now we have some questions about different groups in our society. Here is a seven-point scale on which the characteristics of people in a group can be rated. In the first statement a score of 1 means that you think almost all of the people in that group are 'rich.' A score of 7 means that you think almost all of the people in the group are 'poor.' A score of 4 means that you think that the group is not towards one end or another, and of course you may choose any number in between that comes closest to where you think people in the group stand.

Where would you rate Whites in general on this scale?

ADMINCONSENT: Categorical (Single)

One important purpose of our survey is to gather information about our society in order to explain trends in attitudes and behaviors. The GSS seeks to support the study of opinion data with more behavioral, fact-based information. To do this, we need your permission to search government records that may exist now or in the future such as Census data, unemployment or social security information, Medicaid and Medicare, health records and other sources. We would link your interview with that information upon completion of the survey. Also, we would like to be able to continue combining these data for the foreseeable future. Each time, in the future, we will remove personally identifiable information after the linking process, and store anonymous data for the duration of our study. The best way for us to get this information without taking up any more of your time is to conduct the work in a secure data facility meeting strict Federal Information Security Management Act requirements, and we need your permission to proceed. All identifying information will be kept confidential as required by law. If at any time you change your mind, you can contact us at the toll-free number 888-837-8988.

May we try to link government records with your survey answers?

If you would like to learn more about this, you can review Frequently Asked Questions at <http://gss.norc.org/Documents/MyGSS/AdminConsent.pdf>.

Thank you very much for your time and help. Those are all the survey questions I have for you. In appreciation of your participation, we will send you \${response to P_INCAMT}. We have a few options for you to receive \${response to P_INCAMT} – {response to cashfill} Checks will be mailed via the U.S. Postal Service and will take 2 to 4 weeks to arrive. Gift cards are typically delivered via email within 1 to 7 days. Please tell me how you would like to receive your incentive:

[Click here to see terms of service.](#)

Categories:

{x}	The next questions have been asked for almost 50 years. For historical comparison, we would like to ask them again here.
{y}	

workwhtintro: Categorical (Single)

Categories:

{x}	The second set of characteristics asks if people in the group tend to be hardworking or if they tend to be lazy.
{y}	Now we have some questions about different groups in our society. Here is a seven-point scale on which the characteristics of people in a group can be rated. In the first statement a score of 1 means that you think almost all of the people in that group are "Hardworking." A score of 7 means that you think almost all of the people in the group are "Lazy." A score of 4 means you think that the group is not towards one end or another, and of course you may choose any number in

between that comes closest to where you think people in this group stand.
