NAVIGATION: Info

Navigating the survey:

This survey contains questions you will be asked to answer on each screen.

Click the 'Next' button to continue to the next page.

Click the 'Back' button if you want to go back to an earlier question.

Leaving and returning to the survey:

Click the 'Exit' button on the top right of the screen if you need to complete the rest of the survey at a later time. Exiting will help ensure that all of your responses are saved.

To return to the survey, go to the survey's URL and re-enter the unique PIN you were provided.

Changing the survey language:

Click on the language dropdown in the top right corner. The language will update after you click 'Next'.

PRECONSENT: Info

NORC at the University of Chicago and the National Science Foundation have done the General Social Survey (GSS) for more than 50 years to keep a historical record of the concerns, experiences, attitudes, and practices of Americans. This is a follow-up survey to the 2024 GSS. You were selected from participants in the 2024 GSS for participation in this short follow-up survey. The information collected is used by policy makers, scientific researchers, government officials, and students to better understand Americans and better meet their changing needs.

The questions we'll ask have to do with your opinions and knowledge on a variety of important topics like science, technology, health, work, and religion. Some topics may be sensitive for you, and you can decline to answer any question.

Your participation does not involve any risks other than what you would encounter in daily life. Most participants find the survey to be interesting with a chance to think about things that matter to them. The survey will take 15 minutes to complete. You may also be contacted in the future to participate in a future round of the General Social Survey or another study established by the National Science Foundation. Participation in this round of the survey does not obligate you to participate in any future rounds of the General Social Survey or any other surveys. Any future participation on your part will again require us to gain your consent.

CONSENT: Categorical (Single)

Your participation is voluntary. However, all information that you provide will be kept in strict confidence. It is important to us to protect your privacy. We will remove any personal information that could identify you (such as your name, address, or birthdate) before results are shared publicly to ensure that no one will be

able to identify you from the information we share. The data collected from you will be combined with data from others that participate and shared with the research community to advance science and our understanding of society. Despite these measures, releasing your deidentified data means there is a minimal risk that someone could re-identify you through other publicly available sources of data.

We have received a Certificate of Confidentiality from the National Institutes of Health. This means that your answers will be kept confidential, even if the researchers receive a court order or subpoena to release information that could identify you. The protection offered by the certificate does not stop the researchers from voluntarily reporting information about suspected or known sexual, physical, or other abuse of a child or elderly person, or a participant's threats of violence to self or others. If you voluntarily give your written consent for anyone to receive information about your participation in this research, then we may not use the certificate to withhold this information.

If you have questions about your rights as a research participant, you may call the NORC Institutional Review Board Manager toll-free at 1-866-309-0542. If you have questions about the General Social Survey, you can contact the project hotline at 1-888-837-8988.

Please press 'Next' to continue with the survey.

{noanswer}	NA

CREDREP: Categorical (Single)

As you might know, a person's credit report captures information about their loans, debts, and payment history. Credit reports may include details about credit cards, mortgages, car loans, and student loans; as well as information about unpaid medical bills, bankruptcies, and past-due amounts owed to companies such as cell phone providers and utilities.

In general, would you say that your credit record is poor, fair, good, very good, or excellent?

Categories:

{poor}	Poor
{fair}	Fair
{good}	Good
{vgood}	Very good
{excellent}	Excellent
{dknow}	Don't know
{noanswer}	NA

CREDCHOICE: Categorical (Single)

Would you say your current credit score has more to do with choices you've made or things out of your control?

Categories:

{allmych}	Entirely choices you've made
{mstmych}	Mostly choices you've made
{bthmych}	Both choices you've made and things out of your control
{mstnotmy}	Mostly things out of your control
{allnotmy}	Entirely things out of your control
{noanswer}	NA

CREDAM: Categorical (Single)

Now, thinking about Americans in general, do you think credit scores are more the result of choices people make or things out of their control?

Categories:

{allthch}	Entirely choices they make
{mstthch}	Mostly choices they make
{bththch}	Both choices they make and things out of their control
{mstnotth}	Mostly things out of their control
{allnotth}	Entirely things out of their control
{noanswer}	NA

CREDLAND: Categorical (Single)

It's not only lenders that use credit reports to make decisions. How fair or unfair do you think it is for each of the following to use credit reports?

Landlords deciding who to rent to.

Categories:

{vryfair}	Very fair
{smwtfair}	Somewhat fair
{neithfair}	Neither fair nor unfair
{smwtunfair}	Somewhat unfair
{vryunfair}	Very unfair
{noanswer}	NA

CREDEMP: Categorical (Single)

(It's not only lenders that use credit reports to make decisions. How fair or unfair do you think it is for each of the following to use credit reports?)

Employers deciding who to hire.
